GHAEM DAROU

**Ghaem Darou Herbs Company** is proud to produce Iranian products and create self-sufficiency in the country since its establishment, has always tried to market its products at the highest quality level with appropriate technology, high-quality raw materials, experienced, committed and trained staff. In order to maintain and improve the quality management system, management and employers have established macro policies based on the following pillars, while complying with the legal requirements and approvals of the Ministry of Health and Medical Education of the country, along with receiving ISO 9001:2015 and GMP certificates.

The necessary international standards have also chosen these requirements and as the intellectual and practical policy of his company, he is obliged to comply with them:

1. Improving the quality of manufactured products using new methods and technologies.
2. Committing to implement the applicable legal requirements in the quality field.
3. Increasing customer satisfaction through fulfilling their wishes.
4. Continuous scientific and practical education and promotion of all personnel.
5. Improving the quality culture of the organization by relying on the intelligent activity of the personnel in fulfilling the assigned responsibilities.
